

Meeting 11/17

Creative Director: Maggie Liu

Designer: Aaron Cho

Homepage looks more empty than others: Distinguish home visually from other pages too? Different background color?

- I'll put in images, but didn't have time yesterday. Main page will be image focused but will keep in black background throughout.

Mockups - great variety in formats, will you keep this format on the final?

- Hopefully, if my coding skills are good enough then hell yeah.

Will you use clearer hierarchy with different font colors like the final?

- Yes, I'll change titles to shades of red like in the mockups

Any ideas for Responsiveness?

- I'll just be changing text size/image size based on desktop or mobile.
