

Meeting

- Great colors and design layout
 - Visually appealing and ominous
- Can par down some content if needed, especially for the ghost festival one. Creates consistency and doesn't overwhelm the audience.
- How will you use navigation and pages?
 - Multi page navigation could be one button for each category that takes you to a page. Each button has one illustration/image
- Interesting box sizes
 - This can emphasize more important superstitions, or cut out some boxes to just one for clarity.
- Colors of boxes will be covered with images
 - Images can be sourced and edit or illustrated
